SOURCE [REDACTED]

On 19 February 1954, source observed 10 MiG/Unig-15s parked in the western corner of Parchim airfield and another 20 aircraft south of the Parchim-Damm highway. The aircraft [REDACTED] In the afternoon, 25X1 individual flying and flights by elements of two were performed by these aircraft. Source observed a radar set, presumably of type Kniferest, near the main gate of the installation. The set was seen rotating counter-clockwise. Two trucks were observed beside the radar set. Another radio station was located north of the Parchim-Damm highway; source saw two radio masts at a far distance. In the eastern extension of the runway toward the latter radio station, source observed some large searchlights. [REDACTED] 25X1
